

CURBCO

MEASURE ROOF CURB

Job Name

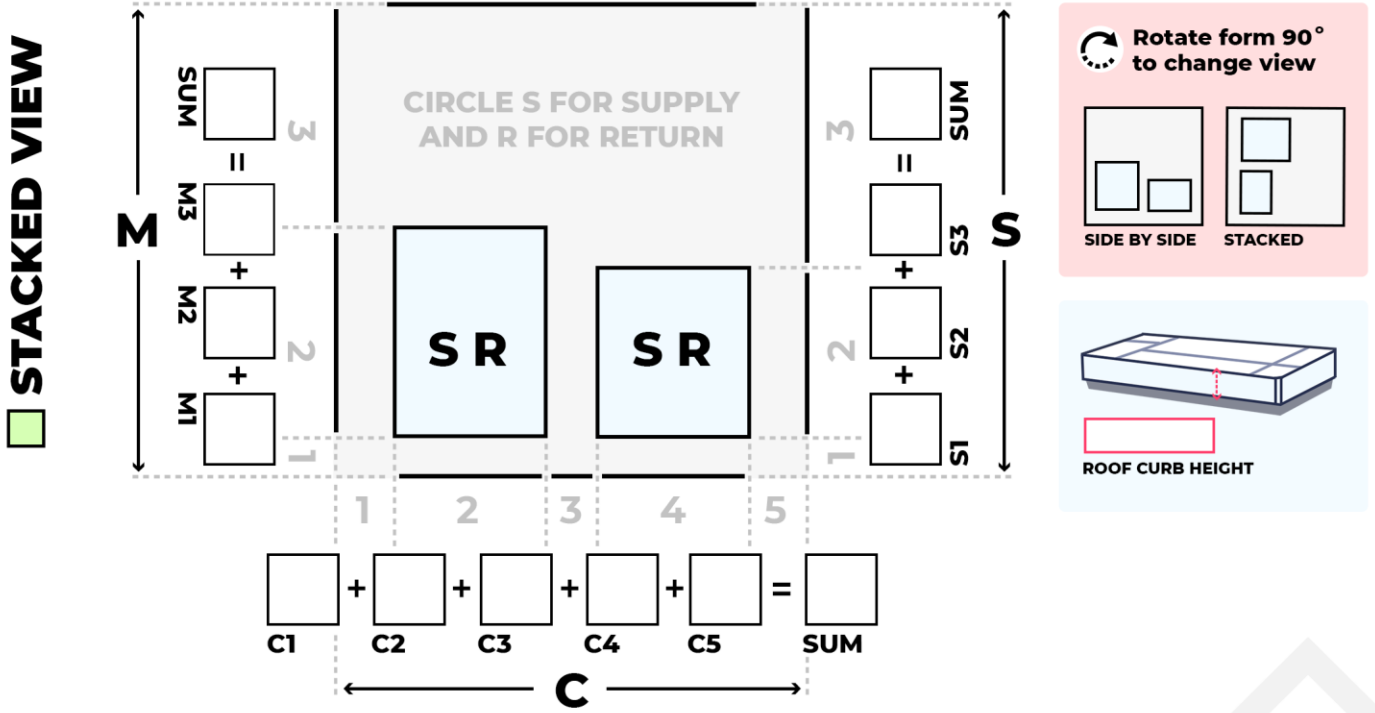

RTU Number

Measure By

Date

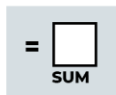

SIDE BY SIDE

Measurements Not Needed For This Side

Instructions

- 1 Measure the TOTAL Outside Dimension for each side: M, C, S
- 2 Add up the dimensions on each side and enter in the "SUM" box
- 3 For each side, measure the distance between the dotted-lines
- 4 Write each measurement in the corresponding box (i.e., Distance 1 in Box A1)

- 5 Check the box to choose between STACKED or SIDE BY SIDE
- 6 If they do not match, check your math and remeasure until they do
- 7 Measure the height of the Roof Curb
