CURB MEASURING SYSTEM

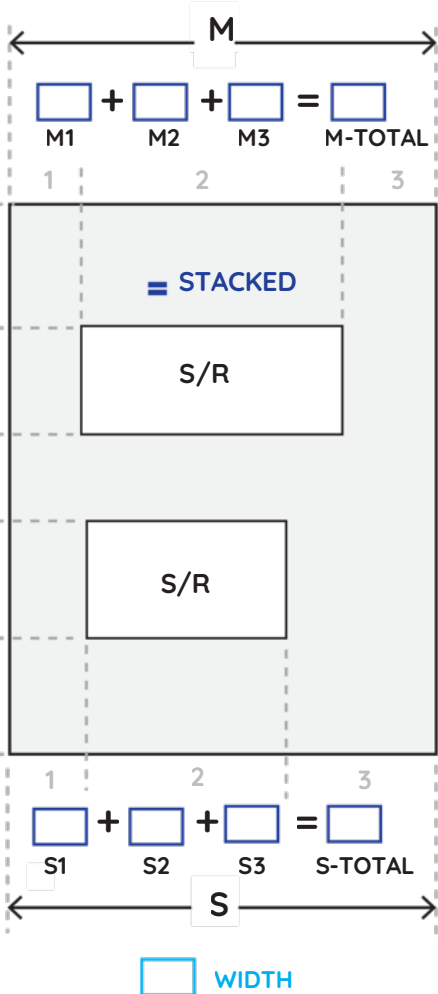

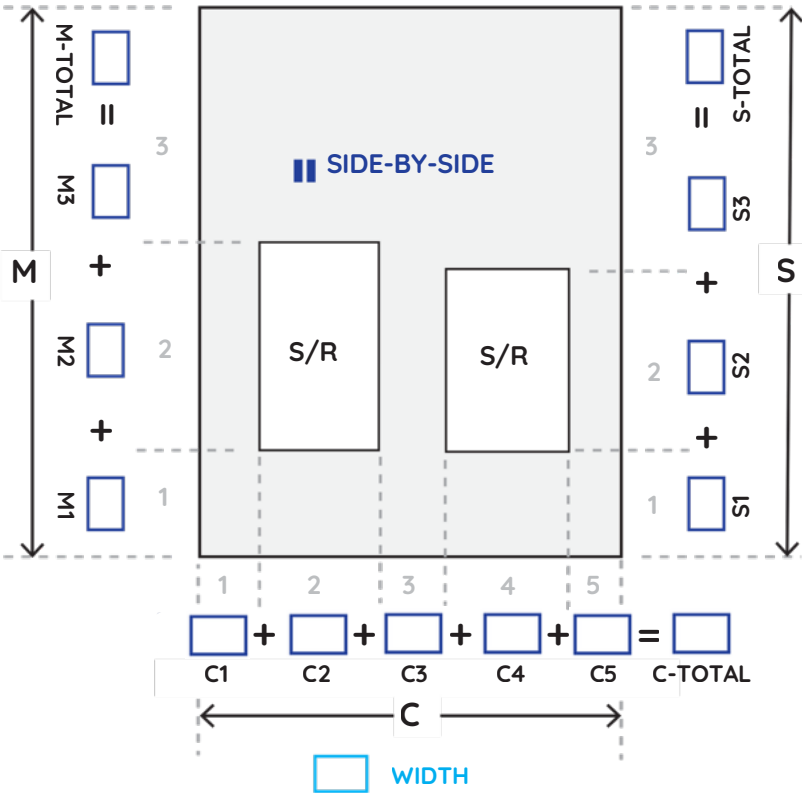

Job Name

RTU Number

Measured By

Date

Measurements not needed for this side.

DOUBLE-CHECK

FOR **||** ☐ C-TOTAL = **WIDTH** ☐ M-TOTAL = **LENGTH** ☐ S-TOTAL = **LENGTH**
FOR **=** ☐ C-TOTAL = **LENGTH** ☐ M-TOTAL = **WIDTH** ☐ S-TOTAL = **WIDTH**

Instructions

- Stand on the short side of the curb; if ducts are next to each other, the curb is "side by side". If they are stacked away from you, it's "Stacked".
- Circle the letter 'S' for the supply opening and 'R' for the return opening.
- Measure, then record the short side for WIDTH and the long side for LENGTH.

- For each side, measure the distance between the dotted lines and record the measurements in the box.
- Add up the dimensions for each side (C, M, S) record results in the C - Total, M - Total, S - Total boxes.
- Double-check! Verify that the WIDTH and LENGTH from STEP 3 are equal to the TOTAL for each side (C, M, S)
